

To support our Kurdish families.

CatholicCare's Kurdish Kurmanji interpreters have recorded some audio information in language about COVID-19. Most are based on a simplified version of government factsheets. All are available on the CatholicCare Toowoomba Facebook page and we ask people to please share the information through their networks.

As of today, the five topics covered are:

- What to do if you think you have coronavirus
- What is social distancing?
- Novel coronavirus
- What is self quarantine?
- How to get help from TRAMS

We plan to add more if required.
