

CENTENARY HEIGHTS STATE HIGH SCHOOL

Safety - Respect - Learning

21 November 2018

Dear Parent/Carer,

At Centenary Heights State High School, we are able to offer students extra literacy and numeracy support. The Learning Facilitation Centre provides opportunities for students to experience this support in a number of core learning areas, particularly in the junior school.

In Year 9, students have the chance to participate in a Mathematics Foundation class. The focus of this class is to provide a course of study designed to benefit students who have demonstrated ongoing difficulty in Mathematics. Students in the Foundation class will take this class in place of a mainstream Math class.

After careful data collection and discussion with classroom teachers, your child has been identified as a student who would benefit from this type of support. Subsequently, his/her 2019 timetable will reflect an inclusion in this Mathematics Foundation class. If you would like to discuss the process further or have any questions regarding your child's inclusion in this class, please do not hesitate to contact the Learning Facilitation Centre Coordinator on 4636 7500, or by email rmay12@eq.edu.au

Yours sincerely,

Rachael Mayers
Learning Facilitation Centre Coordinator
