

## Testimonial from Sei, Year 11, 2016

Centenary Heights State High School (CHSHS) offers the best support and care for international students, with diverse subjects and an outstanding international program for students. Since CHSHS started the international student program in 1991, every staff member is very skilled and has full understanding of different cultures, willing to offer the best help if any is needed. As I have joined our school when I was in year 8, the staff have volunteered to look after me like a family, trying their best to help me to settle in Australia and to overcome homesickness. My personal experience about CHSHS international program is pleasant; our school has the best facilities, staff and students. CHSHS is a great school to learn English, make friends and to experience true Australian culture. I would like to strongly recommend our school to any other international student who would like to join EQI's high school program.
